

Why did Nabo start?

Nabo was born out of the realisation that the sense of community we once experienced is struggling to exist in this technological age.

Nabo makes that same technology bring us together again.

How is Nabo different from other social networks?

Members of Nabo are addressed verified meaning you are talking the people who live in your neighbourhood.

Nabo is unique in that it is specifically designed to connect residents with each other and their suburb

Why should your organisation join Nabo?

Residents in your neighbourhood are already using Nabo to connect and discuss a range of local community issues including crime and safety, traffic and transport.

Members are looking for organisations to join the conversation.

How much does it cost for an organisation to join Nabo?

Nabo is free for members and organisations.

How much time does it take for an organisation to set up and manage an account on Nabo?

Organisations can have their Nabo account established within 48 hours. Posting a message to Nabo is similar to other social networks and can take as little as 30 seconds.
